

PUBLIC TRANSIT REGIONAL FORUMS

Vermont is updating its state-wide
Public Transit Plan.

Do you ride the bus? Carpool? Uber? We want your input. VTrans will be holding regional forums throughout the state in October and November. The purpose of the regional forums is to gather input on existing public transportation services, service gaps and challenges, and potential solutions from stakeholders and transit riders.

Please visit the project website for more information and to provide feedback using an interactive survey:
